

Why Choose Yo!Coach?

Feature-rich, Scalable
& Trusted Around the Globe

Online Tutoring and Consultation Software
(A Product of FATbit Technologies)

A young man with dark hair and glasses is shown in profile, focused on his work. He is wearing a dark blue long-sleeved shirt and is seated at a desk. In front of him is a laptop with a distinctive red keyboard. His hands are resting on the desk near the laptop. The background is a blurred interior space, possibly a library or a study, with shelves filled with books or papers. A semi-transparent blue box is overlaid on the left side of the image, containing white text. Another blue box is at the bottom right, containing logos of various media outlets.

Yo!Coach, a product of FATbit Technologies Is a versatile solution to build online tutoring and consultation marketplaces like Verbling, Preply, and Cambly. It is a readymade software with handpicked features to meet the diverse needs of eLearning businesses. The framework of Yo!Coach is fully customizable making it compatible with many other niches around online tutoring and consultation.

“At FATbit I have found professionalism and a friendly, responsive ,approach, that helping me solve all the queries I had regarding my project”

Mario Innaro,
Language Explorer

Our Impact - Client Testimonials

“We are a brick and mortar physical location language school franchise. Once the COVID-19 shut down happened we needed to move online. Yo!Coach provides a very modern platform for us to execute not only language learning but all types of learning.”

Rey D Angelo,
PortalTeach.com

“Excellent Product for Startups and Good Customer Support. The product is good for getting started and has a fairly rich set of features. A well-featured startup product that has most of the functionality to get going immediately. Fairly deep and broad functionality and well thought out. Deployment was easy and has been very stable. Overall, a good product and great customer support.”

WTutors

WTutors engaged FATbit as a technology partner to develop an online tutoring marketplace to widen the educational and skill improvement opportunities at an affordable cost. The Hong Kong-based company envisioned breaking the geographical barriers and reach a wider audience that would bring global educational diversity.

Powered by Yo!Coach

- Automatic detection of Daylight Savings Time (DST)
- Time zone specific notifications across the system for various use cases to eliminate the communication barrier.
- Request based unlocking of the special/discounted prices by the teacher
- Provision for configuring simultaneous slots for sessions by a teacher along with an option of including a break of configurable duration between two consecutive sessions
- Automated masking of phone numbers and emails in the system-level communication

Yo!Coach Reviews on Capterra.com

"A well made product"

FATbit took great care to ensure that we were happy with our software. They were patient whenever we had concerns; they worked hard to make sure our needs were met.

The software is easy to use and has all the features one would need to run a successful tutor booking platform the integration was straightforward and the admin dashboard is intuitive enough that you don't need to be tech-savvy to get started.

Yo!Coach Reviews on Capterra.com

"Yo!Coach Review"

My overall experience with Yo!coach was Great. The customer support is excellent. I would like to personally thank the team as they were available at any time to help with my numerous questions.

Nothing was too much trouble and they were of the utmost professionalism. They helped us massively and was a real asset to us.

The software is easy to use and intuitive. Everything is laid out in an easy-to-understand manner and can be fully customized.
